

American English (U.S. State Dept)

The “**Resources**” page on *American English*, managed by the U.S. Department of State’s Office of English Language Programs, provides an expansive collection of free educational materials for teaching and learning English as a foreign language. It includes nearly a thousand diverse resources such as lesson plans, publications, games, music, interactive videos, and classroom activities designed for both teachers and learners at various proficiency levels. The site organizes content into categories like language skills, U.S. culture, webinars, and creative classroom ideas, making it easy to find engaging and culturally rich teaching materials. Users can also explore professional development support and teaching strategies that enhance communicative learning. This resource is particularly useful for educators seeking high-quality, accessible materials that integrate language learning with cultural awareness in a global context.
