

# French Language Learning Support: 20+ Sites

The “**French Language Learning Support: 20+ Sites**” page is part of the **Research Guides provided by Rowan University Libraries** and offers a **curated list of over 20 useful websites to support French language learning and cultural exploration**. Created by academic librarians, this guide aggregates external links to high-quality educational sites that include interactive exercises, dictionaries, multimedia resources, and other digital tools designed for both students and teachers of French.

By organizing these sites in one comprehensive guide, it serves as a **starting point for learners to strengthen vocabulary, grammar, reading, listening, and cultural knowledge** using a variety of formats and approaches. This LibGuide is especially valuable for users who want to explore diverse educational resources in one place and tailor their learning or teaching strategies based on interests and proficiency level.
